OPEN BOOK EXTRACTS

Proud to offer Organic

With decades of patented food-grade supercritical CO2 extraction expertise, our partner offers Open Book Extracts the ability to provide USDA-Certified Organic Ingredients. The process starts with USDA-Certified Organic whole plant hemp biomass from our network of carefully vetted farmers, who hold proper certifications. Using a cGMP food grade method for extraction and remediation, our certified organic ingredients retain high levels of naturally occurring CBD & other minor cannabinoids. We remove the THC rather than converting or degrading it into other unknown isomers.

USDA Organic THC-Free Broad Spectrum Distillate

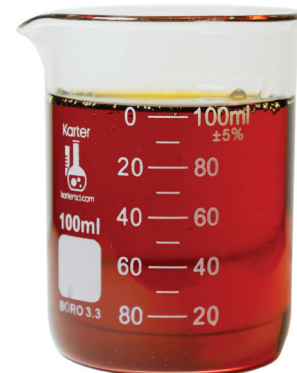

85%+ potent broad spectrum oil is refined to remove cannabinoids such as THC but to retain beneficial minor cannabinoids and terpenes. This distillate offers 0.0% THC or less and 1% - 5% minor cannabinoid profile.

- **Appearance:** Medium to dark gold color
- **Flavor:** Natural Terpenes
- **Odor:** Natural Terpenes
- **Potency:** 85%+ CBD, <0.0% THC, minors 1% - 3%
- **Consistency:** Solid at room temperature. Thick and sticky when melted.
- **Melting Point:** 55-60°C

USDA Organic Full Spectrum Distillate

85%+ potent full spectrum oil contains all the cannabinoids and compounds found in the hemp plant with 0.3% THC or less and 1% - 5% minor cannabinoid profile.

- **Appearance:** Medium to dark gold color
- **Flavor:** Natural Terpenes
- **Odor:** Natural Terpenes
- **Potency:** 85%+, 0.3% THC or less, minors 1% - 5%
- **Consistency:** Solid at room temperature. Thick and sticky when melted.
- **Melting Point:** 55-60°C
