Subject: Receipt of Industrial Hemp Registration Form

Old Belt Extracts LLC,

With this letter we hereby acknowledge the receipt of your Form to Register as an Industrial Hemp Processor as previously required by 02 NCAC 62 .0101-.0109 and Chapter 106 Article 50E of state of North Carolina which is now optional, but encouraged.

Keep in mind there may be legal obligations. It is recommended you contact your local or county authorities to permit or register your facility. You may want to let your county extension agent know of your intentions, so they are aware of your facility's presence. Be aware that a registered processor must still follow all applicable state and federal laws pertaining to products produced.

Sincerely,
The North Carolina Department of Agriculture and Consumer Services Plant Industry Division

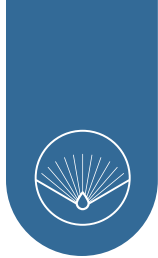

NC Industrial Hemp Processor Number: 1394

This voluntary registration identifies the entity (business or individual) below as an industrial hemp processor in the state of North Carolina. Registrants should understand the following:

- **That they should NOT process or possess any material not meeting the definition of hemp specifically anything containing over 0.3% THC by dry weight .**
- **That the registrant is responsible for knowing and obeying any additional federal, state, county, or municipal statutes that might impact their ability to process, sale, or distribute their intended products/services.**
- **That it is recommended, NOT required, that the registrant reach out to their county extension office and/or local/county law enforcement so that both are aware of their facilities presence and intentions.**

More information about the statutes regarding Industrial Hemp can be found on last page. Please review carefully as the above statements do not include the breadth of requirements and regulations for processors.

RE: APPROVAL OF ARTIFICIALLY DERIVED CBN MANUFACTURER

The Commission has received and approved your request for approval as a manufacturer of artificially derived cannabitol (CBN) as described in OAR [845-025-1310\(5\)](#).

While this approval remains in effect, artificially derived CBN manufactured at your licensed facility may be used in marijuana items or hemp items sold in the OLCC-licensed system until January 2, 2025. On and after January 2, 2025, products containing artificially derived CBN must meet the requirements described in OAR [845-025-1310\(5\)](#).

Note that OLCC licensees can only receive hemp items via a licensed transfer in the Cannabis Tracking System used in Oregon. In order to transfer your artificially derived CBN to OLCC licensees, you will need to work with a hemp handler licensed by the Oregon Department of Agriculture who holds a hemp certificate with OLCC. After receiving the material into their Oregon facility, this handler will be able to enter it into the Cannabis Tracking System and request the compliance testing required by OAR 845-025-2755 and 845-025-5800 to 845-025-5850.

FOOD GRADE STATEMENT LETTER

Dear Customer,

Open Book Extracts is a wholesale producer of full-spectrum CBD oil derived from hemp grown organically in the foothills of North Carolina

Careful control of our supply chain ensures the integrity and traceability of our products. Our in-house team of inventory experts tracks each plant through the complete life-cycle (cultivation, harvest, extraction, production, testing and packaging) providing unparalleled transparency into the lineage of finished products.

All of our products are produced in compliance with applicable state and federal regulations. Open Book's food-grade manufacturing facility follows common good manufacturing practices (cGMP), ensuring our products are pure, safe and consistent.

Other ingredients in our products are sourced from food grade suppliers and are considered safe for human consumption.

Sincerely,

PROPOSITION 65 STATEMENT LETTER

Dear Customer,

As part of our product stewardship and regulatory compliance efforts, we continue to monitor potential regulatory, safety, health, and environmental impact of our products. As such, we would like to inform you regarding the requirements of the regulation concerning California Proposition 65.

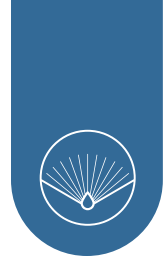

California Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, became law in November 1986. Proposition 65 requires businesses to provide warnings to Californians (and others doing business in the State of California) about significant exposures to chemicals that are known to cause cancer, birth defects, or other reproductive harm. On August 31, 2016, the State of California Office of Environmental Health Hazard Assessment (OEHHA) adopted certain amendments to Article 6, Clear and Reasonable Warnings for California Proposition 65 which became effective on August 30, 2018. For more information on warnings, go to www.P65Warnings.ca.gov.

Please feel free to contact Open Book Extracts if additional information is needed.
